

Vendor Box Shipping Label Button

Objective: Create shipping label button for [Box Record](#)

<https://system.sandbox.netsuite.com/app/common/custom/custrecord.nl?id=592&e=T>

1. The shipping label will source label information from the following fields

- **Declared Value/Reference:**

- Source from INSURANCE VALUE field (Field ID: custrecord_box_insurance_value). If insurance value exceeds 50,000, declare 50,000 in the declared value field and declare remainder in the reference field in the following format
- RE2014[insert remaining value here]200305
- Example: insurance value = 70,000 then declared value = 50,000 and reference = RE201420000200305

- **Address (Ship To):**

- COUNTRY (Field ID: custrecord_box_country)
- ATTENTION (Field ID: custrecord_box_attention)
- ADDRESSEE (Field ID: custrecord_box_addressee)
- PHONE (Field ID: custrecord_box_phone)
- ADDRESS 1 (Field ID: custrecord_box_address1)
- ADDRESS 2 (Field ID: custrecord_box_address2)
- CITY (Field ID: custrecord_box_city)
- STATE (Field ID: custrecord_box_state)
- ZIP (Field ID: custrecord_box_zip)

- **Address (Ship From):**

- Source address of FROM LOCATION (Field ID: custrecord_box_from_location) inventory location

- **Shipping method:**

- 'Web Services - FedEx Priority Overnight®' = 'FedEx Priority Overnight®'
- 'Web Services - FedEx 2Day®' = 'FedEx 2Day®'
- 'Web Services - Express Saver®' = 'Express Saver®'
- 'Web Services - FedEx Ground®' = 'FedEx Ground®'
- 'Web Services - FedEx First Overnight®' = 'FedEx First Overnight®'

- **Special delivery instructions:**

- *Saturday delivery:* When this value is selected, Saturday Delivery is selected on the FedEx shipping label
- *Direct Signature NOT Required:* When this value is selected, direct signature is **not** required

- **Invoice:** Box Record ID (Field ID: recorded)

- **Ship Date:** Ship Date (Field ID: custrecord_box_ship_date)

- **Account#:** If 'To Location' is null or contains 'BE Fulfillment' then use vendor account otherwise use account associated with inventory location listed

- Label will download to the SHIPPING LABEL field Field ID:

custrecord_box_shipping_label) and tracking# will sync to the TRACKING ID field (Field ID: custrecord_box_tracking_id_
